[REDACTED]

1. Senator Luis E. Heysen, APRA Secretary of Discipline, has stated that the Presidential Decree of 6 August 1948 on the calling of a Constituent Assembly might leave no road open to the Apristas except revolution.
2. Heysen continued that the people of Peru will not accept dictatorship and that although Haya de la Torre does not want revolution, there was no way in which the Aprista Party or the people could accept this "robbery of their elected representation". In the face of this conspiracy of the Right, the people must defend their liberties.
